

Get to Know Karlan Tucker

I've been privileged to visit with over 5,000 families over the past 31 years. Many of these folks were ready for retirement, but their financial portfolios were not ready to provide income for a retirement that could last up to 30 years.

I enjoy sharing the knowledge I've gained from these 5,000 interviews on our radio show and in my soon-to-be released book *Rescue Your Retirement*.

I have helped protect over 2,000 clients from making devastating financial decisions. They have discovered how rewarding retirement can be when their finances are prepared to weather any financial storm! It is gratifying to help my clients find income they didn't know they had by maximizing their Social Security income, as well, as income from their 401(k)s, IRAs, savings and portfolios.

Karlan Tucker & Associates brings tremendous value to their clients and client's loved ones. Karlan Tucker & Associates has thrived by helping ensure their clients' standards of living are secure for the remainder of their lifetime and then efficiently passing on what's left to their children and grandchildren.
